Overview

The HPE OfficeConnect 1420 Switch Series delivers cost effective gigabit Ethernet (1GbE) connectivity offering smart managed plug-and-play simplicity. The series includes nine models, all with gigabit performance and a choice of key links for connectivity to servers and storage. All models support silent fanless operation, automated features for hands-off management, limited lifetime warranty and 24x7 phone support for 90 days

What's new

- Limited Lifetime warranty with 24x7 phone support.
- Energy Efficient Ethernet for low power consumption.
- Quality of Service (QoS) and flow control for improved network efficiency
- New, cost-effective, unmanaged gigabit switches in 5, 8 and 24 Gb-port configuration with and without PoE
- Plug-and-play with fully automated functions and zero ongoing maintenance.

Features

The 1420-24G-2SFP model with SFP uplinks is ideal where gigabit fiber is required, while the 1420-24G-2SFP+ model where 10GbE is needed.

- Cost-effective Ownership for Now and into the Future
- Automated Features for Hands-off Operation
- Units can be deployed for desktop operation or can be rack mounted.
- Half-/full-duplex auto-negotiating capability on every port doubles the throughput of every port.
- Cost-effective, High-performance GbE Layer 2 Switching
- Flexible Choices To Meet Most Basic Layer 2 Networking Design Needs
- All HPE OfficeConnect 1420 Switch Series models are plug-and-play with zero configuration and no configuration required.
- This unmanaged PoE+ model delivers fully automated support for powering compatible IP phones.
- The HPE 1420-24G-2SFP+ 10G Uplink Switch requires no configuration beyond installation of optional 10G SFPs. Alternatively, use today with gigabit SFP transceivers if higher performance is merely a future requirement.
- The HPE OfficeConnect 1420 Switch Series offers a cost-effective upgrade path to next-generation 10GbE.
- All HPE OfficeConnect 1420 Switch Series models are fanless for silent operation in office settings and data centers.
- The OfficeConnect 1420 Switch Series supports jumbo packets to improve the performance of large data transfers.
- The switch series includes PoE+ options to power IP devices without the cost of additional cabling to power outlets.
- Unmanaged switches offer a cost-effective small business solution for locations needing only basic network connectivity.
- IEEE 802.1p prioritization and other QoS features automate the preferred handling of high priority traffic.

int (DSCP) set priorities. The HPE OfficeConnect 1420 Switch Series features gigabit Ethernet (1GbE) connectivity offering smart managed plug-and-play simplicity.

Green features include energy-efficient Ethernet IEEE 802.3az, auto-power down mode on idle ports to reduce power consumption.

The HPE OfficeConnect 1420 Switch Series includes nine models, all with gigabit performance and a choice of key links for connectivity to servers and storage. All models support silent fanless operation, automated features for hands-off management, limited lifetime warranty and 24x7 phone support for 90 days

Power over Ethernet (PoE+) models deliver greater efficiency for powering IP phones, wireless access points and other network devices without the cost of additional cabling.

This series comes with a Limited Lifetime Warranty providing next business day advance hardware replacement support available for the first 90 days, and electronic and business hours phone support for the entire warranty period.

Overview

The HPE OfficeConnect 1420 Switch Series delivers cost effective gigabit Ethernet (1GbE) connectivity offering simple managed plug-and-play simplicity. The series includes nine models, all with gigabit performance and a choice of key links for connectivity to servers and storage. All models support silent fanless operation, automated features for hardened lifetime warranty and 24x7 phone support for 90 days

What's new

Plug-and-play with fully automated functions and zero ongoing maintenance.

Energy Efficient Ethernet for low power consumption.

Quality of Service (QoS) and flow control for improved network efficiency

New, cost-effective, unmanaged gigabit switches in 5, 8 and 24 Gb-port configuration with and without PoE

Limited Lifetime warranty with 24X7 phone support.

Features

Cost-effective, High-performance GbE Layer 2 Switching

Flexible Choices To Meet Most Basic Layer 2 Networking Design Needs

All HPE OfficeConnect 1420 Switch Series models are plug-and-play with zero configuration and no

This unmanaged PoE+ model delivers fully automated support for powering compatible IP phones

Power over Ethernet (PoE+) models deliver greater efficiency for powering IP phones, wireless access

the cost of additional cabling.

This series comes with a Limited Lifetime Warranty providing next business day advance hardware

support available for the first 90 days, and electronic and business hours phone support for the entire warranty period

Green features include energy-efficient Ethernet IEEE 802.3az, auto-power down mode on idle ports

power consumption.

All HPE OfficeConnect 1420 Switch Series models are fanless for silent operation in office settings and

The OfficeConnect 1420 Switch Series supports jumbo packets to improve the performance of large

The switch series includes PoE+ options to power IP devices without the cost of additional cabling for

Unmanaged switches offer a cost-effective small business solution for locations needing only basic

IEEE 802.1p prioritization and other QoS features automate the preferred handling of high priority

traffic (DSCP) set priorities.

Units can be deployed for desktop operation or can be rack mounted.

The 1420-24G-2SFP model with SFP uplinks is ideal where gigabit fiber is required, while the 1420-24G-2SFP+ model is ideal where 10GbE is needed.

Cost-effective Ownership for Now and into the Future

Half-/full-duplex auto-negotiating capability on every port doubles the throughput of every port.

The HPE OfficeConnect 1420 Switch Series includes nine models, all with gigabit performance and

10G uplink options.

The HPE 1420-24G-2SFP+ 10G Uplink Switch requires no configuration beyond installation of optional

transceivers, use today with gigabit SFP transceivers if higher performance is merely a future requirement.

The HPE OfficeConnect 1420 Switch Series offers a cost-effective upgrade path to next-generation

Automated Features for Hands-off Operation

The HPE OfficeConnect 1420 Switch Series features gigabit Ethernet (1GbE) connectivity offering simple network management with unmanaged plug-and-play simplicity.

<title>Sursa Corsair CV Series™ CV550, 80 Plus® Bronze, 550 W</title>

<description>Ca toate sursele de alimentare CORSAIR, seria CV face exact ceea ce spune: o putere continua la capacitate maxima. Un ventilator de 120mm silentios controlat termic porneste la viteza maxima doar atunci cand sursa este supusa unui sarcin mare sau la o functionare silentioasa in momentele in care sursa nu este solicitata. Carcasele din seria CV au o lungime de doar 125 mm, asigurand o potrivire usoara in aproape toate carcasele moderne.</description>

<title>Sursa Corsair SF Series SF750, 80 PLUS Platinum, 750 Watt</title>
<description>Designul de inalta densitate al seriei SF PLATINUM ofera eficienta ridicata si zgomot redus intr-un factor de 10 ori inalta densitate sau calitatea.
Sursele de alimentare din seria SF PLATINUM sunt echipate cu cabluri premium cu maneci individuale, prevazute cu protectie antistatica. Cablurile cu maneci individuale fac, de asemenea, directionarea si gestionarea cablurilor o briza, cu un profil mai subtire si mai usor de gestionat. Cablurile plate sau cu maneci.
Seria SF PLATINUM modernizeaza ventilatorul standard de 80 mm la 92 mm, reducand zgomotul si imbunatatind performanta.

<title>Incalzitor de biberoane U003-BBW</title>
<description>încălzitorul de biberoane beneficiază de o tehnologie care permite încălzirea rapidă și sigură a alimentelor, asigurând astfel siguranță. Acest produs este ideal pentru încălzirea
e siguranță. Acest prezintă numeroase avantaje, cum ar fi stabilitatea termică și utilizarea convenabilă. Acest produs poate fi folosit pentru a încălzi alimente, cum ar fi, de exemplu, terciul de cereale, orezul etc. Temperatura de încălzire este între 40 °C și 70 °C, pentru ca alimentele să nu fie răsfierate și pentru ca substanțele nutritive să rămână intacte.
încălzitorul este prevăzut cu 3 programe cu temperatura prestabilită pentru a permite o utilizare simplă și eficientă:
nte, sterilizare.
 Program de incalzire biberon: temperatura implicită de menținere la cald este de 40 °C (temperatura de menținere la cald este de 70 °C)
Program de incalzire hrana: temperatura implicită de menținere la cald este de 70 °C (temperatura de menținere la cald este de 70 °C)
 Program de sterilizare: durata implicită de sterilizare (10 minute). Durata de sterilizare poate fi setată în funcție de necesități.
 Temperatură reglabilă
Afișaj cu LED
 Afișarea temperaturii în timp real.
 Atunci când temperatura setată este atinsă, aparatul activează funcția de menținere la cald.
Tensiune de alimentare: 230 V ~
Frecvență: 50 Hz

Overview

How do you improve data center power efficiency without impacting IT performance? HPE Flexible Slot Power Supplies provide power supplies that lower server power requirements and reduce power waste in your data center. Its form factor gives you more space to add additional server options and improve the performance of your servers. These power supplies offer greater serviceability, and are supported across the entire HPE ProLiant Gen10, HPE ProLiant 300 Gen9 server series, simplifying your spares strategy and further reducing data center costs.

What's new

Increase power density to support Apollo 2000 Gen10 with HPE 1800W-2200W Flex Slot Platinum Power Supply. The new 1800W Flex Slot power supply with 96% efficiency, 80PLUS Titanium certified. Delivers 48V DC input option in the HPE Flexible Slot Power Supply form factor. Flex Slot 1600W Power Supply with 94% efficiency, 80PLUS Platinum certified. Flex Slot 800W Power Supply with 400W Battery Backup enabling HPE Scalable Persistent Memory Solutions. The new 800W universal Flex Slot power supply enables both 277V AC and 380V DC input options.

Features

Improve Data Center Efficiency Without Impacting IT Performance
HPE Flexible Slot Power Supplies provide up to 96% power efficiency with 80PLUS Platinum-certified power supplies and reduce power waste in your data center.
The power supply form factor is 25% smaller than previous generation HPE Common Slot Power Supplies, saving space in your data center and improving IT performance.
Provides fast, tool-less hot plug access to server power supplies for greater serviceability.
Supported across all HPE ProLiant Gen10 server series, HPE ProLiant 300 Gen9 server series, HPE Apollo 2000 Gen10 server series, simplifying your spares strategy and reducing data center costs.

<description>Lifecycle

Obsolete Date 31-01-2022
End of support date 31-01-2027

Specifications

System fan features 5 single rotor hot plug fans
Power supply type 1 HPE 500W Flex Slot Platinum hot-plug power supply
Included hard drives None ship standard, 4 LFF drives supported
Optical drive type None included
Memory, standard 16 GB (1 X 16GB) RDIMM
Memory type HPE DDR4 SmartMemory
Warranty 3/3/3 - Server Warranty includes three years of parts, three years of labor, three years of onsite
rldwide limited warranty and technical support is available at: <http://h20564.www2.hpe.com/hpsc/wc/public/home>.

Overview

Does your data center need a secure, performance driven dense server that you can confidently deploy for virtual
t DL360 Gen10 server delivers security, agility and flexibility without compromise. It supports the Intel® Xeon® Scala
se in cores , along with 2933 MT/s HPE DDR4 SmartMemory supporting up to 3.0 TB with an increase in performanc
, HPE NVDIMMs and 10 NVMe bring, the HPE ProLiant DL360 Gen10 means business. Deploy, update, monitor and
asks with HPE OneView and HPE Integrated Lights Out 5 (iLO 5). Deploy this 2P secure platform for diverse workload

What's new

HPE Persistent Memory offers the flexibility to deploy as dense memory or fast storage featuring Intel® C
y capacity of up to 3.0 TB.
Enhanced iLO 5 security features such as Server Configuration Lock, iLO Security Dashboard and Workloa
HPE InfoSight provides a cloud-based analytics tool that predicts and prevents problems before your bus
Support for additional second generation Intel® Xeon® Scalable processors with improved price/perform
Networking Choice (NC) server models provide greater flexibility in the primary networking selection.

Features

With support for up to 12 NVDIMMs per chassis and 2X capacity of first-generation HPE NVDIMMs, HPE ProLiant DL360 Gen10 Server delivers enhanced performance.

Services provided under Operational Services include - HPE Flexible Capacity, HPE Datacenter Care, HPE Proactive Services and multi-vendor coverage.

HPE IT investment solutions help you transform to a digital business with IT economics that align to your business goals.

HPE ProLiant DL360 Gen10 Server comes with a complete set of services offered by HPE Pointnext to help customers realize agility and stability.

Services from HPE Pointnext simplifies the stages of the IT journey. Advisory and Transformation Services help you assess and design an enhanced solution. Professional Services enable rapid deployment of solutions and Operational Services ensure ongoing optimization.

Industry-Leading Serviceability and Deployment

Achieve greater capacity with flexible drive configurations with up to 10 SFF and four LFF drives along with SSDs delivering enhanced performance, capacity, and reliability to meet various customer segments and workload requirements.

Supporting the second generation Intel® Xeon® Scalable processor family with up to a 11% performance improvement and memory speeds up to 2933 MT/s.

HPE Persistent Memory works with DRAM to provide fast, high capacity, cost effective memory and analytics by enabling data to be stored, moved, and processed quickly.

HPE ProLiant DL360 Gen10 Server supports industry-standard technology leveraging the Intel Xeon® Scalable processor family, 64 TB of 2933 MT/s HPE DDR4 SmartMemory.

Industry-leading Performance with Versatile Compute

Additional security options are available with Trusted Platform Module (TPM) to prevent unauthorized access and to authenticate the server platforms while the Intrusion Detection Kit logs and alerts when the server hood is removed.

With Runtime Firmware Verification the server firmware is checked every 24 hours verifying validity. Secure Recovery allows server firmware to rollback to the last known good state or factory settings after detection of corruption.

New features include Server Configuration Lock that ensures secure transit and locks server hardware to prevent unauthorized changes. HPE iLO 5 provides a secure management interface to detect and address possible security vulnerabilities and Workload Performance Advisor provides server tuning recommendations.

HPE iLO 5 enables the world's most secure industry standard servers with HPE silicon root of trust to detect and prevent potential intrusions and recover your essential server firmware securely.

Security Innovations

Unmatched expandability is packed in a dense 1U rack design with up to three PCIe 3.0 slots.

Embedded 4 x 1GbE (select models) or HPE FlexibleLOM and PCIe standup 1GbE, 10GbE, 25GbE, or 40GbE networking options provide the flexibility to connect to any network width and fabric so you can adapt and grow to changing business needs.

The premium 10 SFF NVMe chassis backplane provides the ability to mix and match SAS/SATA and NVMe drives in the same LFF chassis that supports new uFF and M.2 storage options.

HPE measurements: Up to 60% performance increase of Intel Xeon Platinum vs. previous generation E5-2600 v4 metrics on HPE servers comparing 2-socket Intel Xeon Platinum 8280 to E5-2699 v4 family processors. Any difference in system hardware or software design or configuration may affect actual performance. April 2019.

Up to 27% core increase of Intel Xeon Platinum versus previous generation comparing 2-socket Intel Xeon Platinum 8280 to E5-2699 v4 family processors. Any difference in system hardware or software design or configuration may affect actual performance. April 2019.

Percentage compare Gen10 vs Gen9: Gen10 = 12 Channels x 2933 data rate x 8 bytes = 281 GB/sec. Gen 9 = 8 Channels x 2933 data rate x 8 bytes = 235 GB/sec. Gen10 is 82% greater bandwidth. Any difference in system hardware or software design or configuration may affect actual performance. April 2019.

HPE measurements: Up to 11% performance increase of Intel Xeon Platinum vs. previous generation average metrics on HPE servers comparing 2-socket Intel Xeon Platinum 8280 to Intel Xeon Platinum 8180 family processors. Any difference in system hardware or software design or configuration may affect actual performance. April 2019.

<description>Lifecycle

Obsolete Date 31-01-2022
End of support date 31-01-2027

Specifications

Number of processors 1 or 2
Processor number 1
Weight 32.6 lb
Optical drive type Optional via Universal Media Bay
Power supply type 1 HPE 800W Flex Slot Universal Hot Plug Low Halogen
Included hard drives None ship standard, 8 SFF drives supported
System fan features 4 single-rotor, standard fans included

Processor core available 16, per processor
 NVDIMM rank Not applicable
 NVDIMM type HPE DC Persistent Memory featuring Intel® Optane™ Technology
 NVDIMM capacity Up to 1 TB per processor
 Infrastructure management HPE iLO Standard with Intelligent Provisioning (embedded), HPE OneView Standard (optional; requires licenses)
 Network controller 1 HPE Ethernet 1Gb 4-port 366FLR FlexibleLOM Adapter (665240-B21) plus optional storage controller
 Weight 14.76 kg
 Graphics Choice of up to 3 double wide GPGPUs, or 5 single wide GPGPUs
 Processor speed 2.3 GHz
 Processor Name Intel® Xeon® Scalable 5218 (16 core, 2.3 GHz, 22MB, 125W)
 Expansion slots 8, for detail descriptions reference the QuickSpecs
 Memory, standard 32 GB (1x 32GB) RDIMM
 Memory type HPE DDR4 SmartMemory and HPE Persistent Memory
 Storage controller 1 HPE Smart Array P408i-a Controller
 Form factor 2U
 Warranty 3/3/3 - Server Warranty includes three years of parts, three years of labor, three years of onsite support. A worldwide limited warranty and technical support is available at: <http://h20564.www2.hp.com/hpsc/wc/public/home>. A purchased locally. For information on availability of service upgrades and the cost for these service upgrades, refer to the QuickSpecs.
 Security Optional locking Bezel Kit, Intrusion Detection Kit, and HPE TPM 2.0
 Product dimensions (H x W x D) 17.54 x 28.75 x 3.44 in
 Minimum dimensions (H x W x D) 44.55 x 73.03 x 8.74 cm
 Processor cache 22 MB L3

Overview

Where is your server bottlenecked...storage, compute, expansion? The HPE ProLiant DL380 Gen10 server delivers comprehensive warranty. Standardize on the industry's most trusted compute platform. The HPE ProLiant DL380 Gen10, featuring the First and Second Generation Intel® Xeon® Processor Scalable Family with up to a 60% performance gain, memory supporting 3.0 TB. It supports 12 Gb/s SAS, and up to 20 NVMe drive plus a broad range of compute options. HPE ProLiant DL380 Gen10 servers are designed for databases and analytic workloads. Run everything from the most basic to mission-critical applications and deploy with confidence.

What's new

iLO 5 security enhancements: Server Configuration Lock, iLO Security Dashboard and Workload Performance Advisor help predict and prevent issues proactively.
 Supporting additional second generation Intel® Xeon® Scalable processor family offerings.
 Increased Single-Width GPU Density with up to 7 NVIDIA T4/Quadro P2000/P2200 or Intel PAC D5005 (Stratix) GPUs.
 Networking Choice (NC) server models provide greater flexibility in the primary networking selection.
 HPE Persistent Memory offers the flexibility to deploy as dense memory or fast storage using Intel® Optane™ memory with capacity of up to 3.0 TB.

Features

HPE Persistent Memory works with DRAM to provide fast, high capacity, cost effective memory and storage for long-term data to be stored, moved, and processed quickly.
 Additional security options are available with Trusted Platform Module (TPM) to prevent unauthorized access. TPM is used to authenticate the server platforms while the Intrusion Detection kit logs and alerts when the server hood is opened.
 With Runtime Firmware Verification the server firmware is checked every 24 hours verifying validity. If a problem is detected, the Recovery allows server firmware to rollback to the last known good state or factory settings after detection of corruption.
 New features include Server Configuration Lock that ensures secure transit and locks server hardware to prevent unauthorized changes. It also detects and addresses possible security vulnerabilities and Workload Performance Advisor provides server tuning recommendations based on workload patterns.
 Only Hewlett Packard Enterprise offers industry standard servers with major firmware anchored in a foundation of trust, security protection is built in across the server life-cycle.

Security Innovations

In conjunction with the embedded SATA HPE Dynamic Smart Array S100i Controller for boot, data and network controllers allow you the flexibility to choose the optimal 12 Gb/s controller most suited to your environment, and operate in 10GbE and 40GbE. Along with an embedded 4x1GbE, you have a choice of HPE FlexibleLOM or PCIe standup adapters (10GbE and 40GbE) and fabric so you can adapt and grow to changing business needs.

Supporting a wide range of operating environments from Azure to Docker to ClearOS in addition to Windows Server.

Hewlett Packard Enterprise IT investment solutions help you transform to a digital business with IT.

The HPE ProLiant DL380 Gen10 server comes with a complete set of HPE Technology Services, designed to help you realize agility and stability.

HPE Pointnext Services simplifies all stages of the IT journey. Advisory and Transformation Services help you design an optimal solution. Professional Services enable rapid deployment of solutions and Operational Services provide ongoing support.

Industry Leading Services and Ease of Deployment

A suite of embedded and downloadable tools is available for server lifecycle management including Intelligent Provisioning; HPE iLO 5 to monitor and manage; HPE iLO Amplifier Pack, Smart Update Manager (SUM), and ServiceGuard.

Supported on the ProLiant DL380, the NVIDIA T4 GPU is ideal for Deep learning, Inferencing, Machine Learning and combinations thereof for mixed workloads - maximizing utilization of data center resources and lowering TCO.

Leveraging HPE's most popular 2U rackmount server, fitting standard depth racks, customizing for various CPU platforms with an extensive set of Accelerator options, enabling diverse cloud workload performance and optimization.

The ProLiant DL380 now features significantly enhanced GPU density, expanding support from 5 to 6 GPUs; or up to 6 in a balanced configuration with additional PCIe expansion via the tertiary riser.

World-Class Performance featuring Enhanced Compute Density

Flexible Design Making Your Investment Expand As Your Business Needs Grow

The HPE ProLiant DL380 Gen10 server has an adaptable chassis, including new Hewlett Packard Enterprise ProLiant up to 30 SFF, up to 19 LFF or up to 20 NVMe drive options along with support for up to three double wide GPU options.

<description>Lifecycle

Obsolete Date 30-06-2023
End of support date 30-06-2028

Specifications

Storage controller 1 HPE Smart Array S100i

Warranty Server Warranty includes 1-Year Parts, 1-Year Labor, 1-Year Onsite support with next business day response. The use of Customer Self Repair (CSR) parts. These parts fall into two categories: 1) Mandatory CSR parts are designed for easy replacement when customers decline to replace a Mandatory CSR part, 2) Optional CSR parts are also designed for easy replacement. Hewlett Packard Enterprise replace Optional CSR parts at no charge. 3) Non CSR parts must be serviced by a trained authorized service provider. Limited warranty and technical support is available at: <http://h17007.www1.hpe.com/us/en/enterprise/servers/warranty> for ClearOS is provided by ClearCenter.

Form factor MicroServer

Expansion slots 1x 16 PCIe Gen3 Slot

Memory type HPE DDR4 Standard Memory

Network controller Ethernet Controller 4-ports per controller

Weight 4.23 kg

Product Dimensions (imperial) 4.58 x 9.65 x 9.65 in

Product Dimensions (metric) 11.6 x 24.5 x 24.5 cm

Processor cache 4 MB L3

Processor core available 2 core

Processor speed 3.8 GHz

Power supply type 180W external power adapter

Processor Name Intel Pentium G5420

Processor number 1

Overview

Are you a small office, home office or small business with branch offices looking to build a customized solution for your needs? Introducing the HPE ProLiant MicroServer Gen10 Plus, an affordable compact yet powerful entry level server that you can customize for on-premises or for hybrid cloud environments. The MicroServer Gen10 Plus has been designed so far, which can be placed flat or vertically depending on your space. The latest Intel® Xeon® E and Pentium® G processors provide performance, security and remote management into the server with HPE iLO Silicon Root of Trust. Along with other enhancements such as HPE iLO 5 Advanced, we've designed that there is nothing Micro about the HPE ProLiant MicroServer Gen10 Plus.

What's new

Supports Intel® Xeon® 2200 processor series and Pentium® G processors, providing both compute power and performance.

HPE iLO 5 provides both Silicon Root of Trust and remote management to the server supporting iLO 5 standard and iLO 5 Advanced.

Four onboard NIC ports provide enhanced networking capability versus previous generations.

Expansion slot for more flexible usage - one x16 bandwidth connector.

The most compact design of a microserver ever! Half the height compared to the previous generation; it's the smallest microserver ever!

Features

HPE MicroServer Now More Micro and Versatile, Yet More Powerful

The HPE ProLiant MicroServer Gen10 Plus product height is half that of the previous generation (M) it can be placed either horizontally or vertically to fit different customer work space.

The HPE ProLiant MicroServer Gen10 Plus server, powered by up to four cores in the Intel® Xeon® MM, delivers just-right performance for small business applications.

HPE iLO 5 standard and essential functionality (Optional), remote monitoring, restore and maintenance Gen10 Plus. Supported by installing an optional iLO Enablement Kit which includes an iLO dedicated port. InfoSight and

Services provided under Operational Services include: HPE GreenLake Flex Capacity, HPE Datacenter e, HPE Proactive Services, and multivendor coverage.

HPE Pointnext Services simplifies all stages of the IT journey. Advisory and Professional Services unified solution. Professional Services enables rapid deployment of solutions and Operational Services provides ongoing

The HPE ProLiant MicroServer Gen10 Plus server comes with a complete set of services from HPE I k, and helping you realize agility and stability.

Industry-Leading Services and Ease of Deployment

Additional security options are available with Trusted Platform Module (TPM) to prevent unauthorized s used to authenticate the server.

HPE Intelligent Provisioning (IP) and HPE Rapid Setup both make server deployment easy; custom intelligent RAID with Rapid Setup.

Hewlett Packard Enterprise IT investment solutions help you transform to a digital business with IT

Secure Recovery allows server firmware to roll back to the last, known-good state or factory settings

The HPE ProLiant MicroServer Gen10 Plus server is one of the Hewlett Packard Enterprise industry ly into the silicon security protection built-in across the server lifecycle, starting with Silicon Root of Trust.

Security Innovations

Four embedded network ports provide the networking needs for small business customers. Options re supported for those who require more.

Overview

What if you could safeguard your business with enhanced security? Improve the efficiency and productivity of your partnership combines technologies to help your business reach its full potential and operate with increased agility, extra r Windows® based servers. Microsoft Windows Server 2016 is the cloud-ready operating system that supports your it easy to integrate hybrid cloud services. It delivers powerful new layers of security along with innovations to elevate Windows Server 2016 paired with HPE servers, storage, and networking solutions provides the technology that help ick on the QuickSpecs document available at the right section of this webpage.

What's new

HPE Small Business Solutions based on Windows Server 2016 now available, click on the Entry Level Servers of this webpage for more details.

Features

Windows Server Containers bring the agility and density of containers to the Windows ecosystem, enabling per-V Containers for a unique additional level of isolation for containerized applications.

Safeguard your data whether on-premise or in the cloud – helping mitigate risk and avoid business interruption. Secure Boot, Shield VMs, and Host Guardian Services are just a few of the additional layers of security offered in Windows Server.

Increase ROI IT investments with flexible storage solutions, such as Storage Replica, Storage Spaces, and Hyper-V. Increase efficiency data protection.

Meet business requirements for scaling applications quickly and provides enterprise level security. Ideal solutions whether in private, hybrid, and private Cloud environments.

Prevent risks associated with compromised administrative credentials. Use new privileged identity management and “just in time” administration.

Overview

Need to secure your server and remotely manage it? The HPE iLO Advanced license offers security and smart remote management. The HPE iLO Advanced license includes the full suite of HPE iLO server management capabilities that offer users enhanced security, improved performance, and more. The Remote Console feature unlocked by this license lets you operate on your server from anywhere, anytime increasing productivity. HPE ProLiant servers such as directory integration and 2-factor authentication that complement the security features with the complete group management capabilities provided by the iLO Federation feature. HPE iLO Advanced is available on all HPE ProLiant servers. Compute Modules include iLO Advanced capabilities, no license is needed.

What's new

HTML 5 Remote Console for iLO 4.

Support for Gemalto Safenet and Safenet AT key managers.

Workload Performance Advisor provides an easy method to monitor and receive real-time tuning recommendations.

Server Configuration Lock ensures secure transit and locks server hardware configuration—enabling unattended operation.

One-button Secure Erase provides an easy method to re-purpose and redeploy your server, ensuring all data is securely erased, per NIST Standards 800-88r1.

Features

Optimized Performance

Power Management with 24-hour history and dynamic capping for health monitoring, power and temperature.

Group License Activation for faster implementation of iLO licenses.

Group Power Capping allows servers to share power consumption among a group of servers.

HTML5 remote console for iLO.

Kerberos authentication provides dual authentication allowing users to log in once and navigate between servers.

Sophisticated Remote Administration of Servers

Console Record and Playback of server administration activity.

Virtual Media and folders to simplify server set up.

Supports Global Team Collaboration for up to six consoles.

HPE iLO Advanced provides Integrated Remote Console with virtual keyboard and mouse to significantly reduce server downtime.

Simplified Server Management at Scale and Built-in Group Management with iLO Federation

Group Power Control lets you turn several servers on and off with a single click.

HPE iLO Advanced offers Group Virtual Media which gives you the ability to replicate the same script across multiple servers.

Support for all iLO Advanced Premium Security Edition features.

Enhanced Security Features

HPE iLO Advanced gives you access to Hewlett Packard Enterprise patented Jitter Smoothing technology, jitter smoothing, and a more intelligent server environment.

Workload Performance Advisor, providing you an easy method to get maximum performance from your server with minimal parameter settings.

Unparalleled transit and endpoint tamper detection.

Common Access Card (CAC)/Personal Identity Verification (PIV) card based 2-factor authentication.

Jitter smoothing mitigates processor frequency fluctuation for reduced latency, more deterministic performance, and workload throughput above Turbo Boost Mode alone.

HPE iLO Advanced provides Directory Service Authentication that allows for user-password policies and the ability to update user-password setting in each server.

Overview

Does your business need to improve its integrated data center and cloud-based platforms with efficiency and security? Windows Server 2019 smoothly bridges on-premises and cloud storage with efficient hybrid capabilities, enhanced security, and faster innovation. Easily and efficiently migrate servers and modernize your infrastructure combining built-in functions such as Storage Spaces Direct. Integrations built into Windows Server 2016 to help organizations lower maintenance costs, manage privileged access, and improve security. Working with innovations to elevate your business's efficiency and productivity, Windows Server 2019 pairs with the HPE Storage Essentials to help achieve your business goals.

What's new

Unique hybrid datacenter platform: Set up future success with efficient hybrid capabilities that work both on-premises and in the cloud.

Best response time: Enhanced security features help detect and respond to new and emerging threats, protect your business data.

Faster innovation for applications: Modernize your existing applications and build what's next with cloud-

Improved hyperconverged infrastructure (HCI): Run applications and workloads with lower maintenance the same time with better scalability.

Features

Storage Migration and Storage Replica

Windows Server 2019 offers system insights, bringing local analytics capabilities and providing high-level insight into proactive care for your on-premises Windows Servers.

Hybrid Cloud and Security

Windows Administration Center serves as the on-ramp for on-premises machines that use Azure services used for management, monitoring, and configuration after the initial setup flow.

Windows Administration Center can restore and perform actions against recovery points. It also serves as the on-ramp for the Windows Server 2019 Storage Migration Service to migrate server workloads from legacy Windows Servers to Azure.

Everything from integrating initial configuration to managing cloud-based services is included to enable migration to Azure cloud services such as Azure Backup, Azure File Sync and Azure Site Recovery.

Windows Server 2019 introduces the freely downloadable Windows Administration Center which integrates tools such as Server Manager and Microsoft Management Console (MMC).

Windows Administration Center and Azure Integration

Reduce the risk of security breaches with support for shielded Linux® VMs, expanding the range of workloads in a virtualized environment.

Windows Defender Advanced Threat Protection (ATP) provides access to deep kernel and memory insights, helping to improve proactive security and to reduce exposure while enabling swift response actions on Windows Servers.

The on-demand Server Core app significantly improves the app compatibility of the Windows Server 2019.

You can continue to use the Azure portal to manage servers at scale across Azure and on-premises. You can also get detailed information for monitoring jobs and alerts using deep links.

Storage Migration Service is a wizard-based technology that makes it easier to migrate servers to Azure, without reconfiguring applications or users.

Storage Replica is now available in Windows Server 2019 Standard with certain limitations - compatible with Hyper-V. Test failover is a unique feature that allows mounting of destination storage to validate replication or backup.

Overview

Does your business need to improve its integrated data center and cloud-based platforms with efficiency and security? Windows Server 2019 smoothly bridges on-premises and cloud storage with efficient hybrid capabilities, enhanced security, and faster innovation. Easily and efficiently migrate servers and modernize your infrastructure combining built-in functions such as Storage Migration Service and Storage Replica built into Windows Server 2019 to help organizations lower maintenance costs, manage privileged access, and improve security. Working with innovations to elevate your business's efficiency and productivity, Windows Server 2019 pairs with the HPE Storage Essentials to help achieve your business goals.

What's new

Unique hybrid datacenter platform: Set up future success with efficient hybrid capabilities that work both on-premises and in the cloud.
Best response time: Enhanced security features help detect and respond to new and emerging threats, protecting your business data.
Faster innovation for applications: Modernize your existing applications and build what's next with cloud-based services.
Improved hyperconverged infrastructure (HCI): Run applications and workloads with lower maintenance costs at the same time with better scalability.

Features

Storage Migration and Storage Replica

Storage Migration Service is a wizard-based technology that makes it easier to migrate servers to Azure, without reconfiguring applications or users.

Storage Replica is now available in Windows Server 2019 Standard with certain limitations - compatible with Hyper-V and VMware. Test failover is a unique feature that allows mounting of destination storage to validate replication or backup.

Reduce the risk of security breaches with support for shielded Linux® VMs, expanding the range of workloads supported in a virtualized environment.

Windows Defender Advanced Threat Protection (ATP) provides access to deep kernel and memory forensics, helping to improve proactive security and to reduce exposure while enabling swift response actions on Windows Servers.

The on-demand Server Core app significantly improves the app compatibility of the Windows Server 2019.

Windows Server 2019 offers system insights, bringing local analytics capabilities and providing high-level visibility into proactive care for your on-premises Windows Servers.

Hybrid Cloud and Security

You can continue to use the Azure portal to manage servers at scale across Azure and on-premises. Windows Server 2019 provides information for monitoring jobs and alerts using deep links.

Windows Administration Center can restore and perform actions against recovery points. It also serves as the on-ramp for the Windows Server 2019 Storage Migration Service to migrate server workloads from legacy Windows Servers to Azure.

Windows Administration Center serves as the on-ramp for on-premises machines that use Azure services. It is used for management, monitoring, and configuration after the initial setup flow.

Everything from integrating initial configuration to managing cloud-based services is included to ensure a smooth transition.

h Azure cloud services such as Azure Backup, Azure File Sync and Azure Site Recovery.

Windows Server 2019 introduces the freely downloadable Windows Administration Center which is tools such as Server Manager and Microsoft Management Console (MMC).

Overview

Does your business need to improve its integrated data center and cloud-based platforms with efficiency and security? HPE SimpliVity smoothly bridges on-premises and cloud storage with efficient hybrid capabilities, enhanced security, and faster innovation. Easily and efficiently migrate servers and modernize your infrastructure combining built-in functions such as Storage Spaces Direct built into Windows Server 2016 to help organizations lower maintenance costs, manage privileged access, and improve performance. With innovations to elevate your business's efficiency and productivity, Windows Server 2019 pairs with the HPE SimpliVity to help achieve your business goals.

What's new

Unique hybrid datacenter platform: Set up future success with efficient hybrid capabilities that work both

Best response time: Enhanced security features help detect and respond to new and emerging threats, protect your business data.

Faster innovation for applications: Modernize your existing applications and build what's next with cloud-

Improved hyperconverged infrastructure (HCI): Run applications and workloads with lower maintenance the same time with better scalability.

Features

Windows Administration Center can restore and perform actions against recovery points. It also serves Windows Server 2019 Storage Migration Service to migrate server workloads from legacy Windows Servers to a modern

You can continue to use the Azure portal to manage servers at scale across Azure's wide range of services. You get detailed information for monitoring jobs and alerts using deep links.

Everything from integrating initial configuration to managing cloud-based services is included to ensure seamless integration with Azure cloud services such as Azure Backup, Azure File Sync and Azure Site Recovery.

Windows Server 2019 introduces the freely downloadable Windows Administration Center which is a modern management tool such as Server Manager and Microsoft Management Console (MMC).

Windows Administration Center and Azure Integration

Reduce the risk of security breaches with support for shielded Linux® VMs, expanding the range of workloads supported in a virtualized environment.

Windows Defender Advanced Threat Protection (ATP) provides access to deep kernel and memory data, helping to improve proactive security and to reduce exposure while enabling swift response actions on Windows Servers.

Windows Administration Center serves as the on-ramp for on-premises machines that use Azure services. It is used for management, monitoring, and configuration after the initial setup flow.

The on-demand Server Core app significantly improves the app compatibility of the Windows Server 2019.

Windows Server 2019 offers system insights, bringing local analytics capabilities and providing high-level visibility into proactive care for your on-premises Windows Servers.

Hybrid Cloud and Security

Storage Migration and Storage Replica

Storage Migration Service is a wizard-based technology that makes it easier to migrate servers to Azure, without reconfiguring applications or users.

Storage Replica is now available in Windows Server 2019 Standard with certain limitations - compatible with Windows Server 2019 Standard. Test failover is a unique feature that allows mounting of destination storage to validate replication or backup.

<title>Portable electric breast pump U003-EPBP</title>
<description>1. Acest produs poate fi utilizat pentru stimularea lactației prin masaj si pentru extragerea laptelui.
Puterea de sucțiune este reglabilă, astfel âncât extragerea laptelui să poată fi realizată ânc
confortabil.utilizează un model de sucțiune âncdoua trepte, reproducâncastfel un ritm
âncmai apropiat de ritmul natural cu care bebelusul suge lapte. Pompa de sânceste prevăzută c
funcție de stimulare automată. Aceasta va activa primul nivel de stimulare odată cu pornirea pompei,
apoi va trece la următoarele niveluri la fiecare 45 de secunde, pâncă la nivelul 5 de al funcției de

stimulare. După ce funcția de stimulare ajunge la nivelul 5, pompa va activa automat modul de extragere la nivel minim. Funcția de stimulare poate fi reglată pe 5 niveluri. Dacă este necesar, utilizați cu regularitate funcția de stimulare a lactației. În cazul în care măriți viteza de stimulare, intensitatea acesteia va crește consecință. Modul de extragere poate fi reglat pe 9 niveluri. Odată cu activarea fiecărui nivel superior, puterea de extragere va crește consecință, iar extragerea va fi mai relaxată și mai viguroasă, timpul de extragere crește și el.

2. Ecranul LED vă oferă toate informațiile necesare utilizării.
3. Pompa este prevăzută cu o baterie cu litiu re ncărcabilă. Dacă este ncărcat complet, poate susține funcționarea pompei timp de aproximativ două ore. Pompa este ușor de transportat și permite o utilizare facilă.
4. Pompa poate fi acționată cu o singură m ă, mama av nd libertate de mișcare în timpul alăptării.
5. Pompa poate fi alimentată at t prin adaptorul de alimentare, cât și de la alte surse de alimentare cu USB, fiind foarte potrivită pentru utilizare timpul călătoriilor.
6. Pompa este construită astfel nc t să nu permită refularea.
7. Pompa beneficiază de caracteristici care stimulează lactația.
8. Construcția pompei permite utilizarea facilă a acesteia.
9. Pompa are dimensiuni mici și, datorită tehnologiei de fabricație, are un aspect plăcut.

<title>Placa de baza ASRock H510M-HVS, Socket 1200</title>
<description>In comparatie cu choke-urile traditionale, choke-urile de putere premium de 50A de la ASRock fac efectul unei tensiuni Vcore imbunatatita si imbunatatita pentru placa de baza.
Procesorul conventional al sistemelor PC poate accesa doar o fractiune din memoria grafica si limiteaza performanta intr-un mod semnificativ. Pentru a exploata intregul potential al memoriei GPU, elimina lag-ul si creste performanta.
Suporta cea mai recenta specificatie de iesire grafica HDMI 4K 60Hz. Datorita latimii de banda mai mari si ratei de cadru mai ridicate, este perfecta pentru gaming si editare video profesionala.</description>

<description>Placa de baza Asus ROG STRIX Z690-A GAMING WIFI LGA 1700 D5

ROG STRIX Z690-A GAMING WIFI D5

CPU

Intel®; Socket LGA1700 for 12th Gen Intel®; Core™; Pentium®; Gold and Celeron

Intel®; Socket LGA1700 for 12th Gen Intel®; Core™; Pentium®; Gold and Celeron

Supports Intel®; Turbo Boost Technology 2.0 and Intel®; Turbo Boost Max Technology 3.0**

* Refer to www.asus.com for CPU support list.

** Intel®; Turbo Boost Max Technology 3.0 support depends on the CPU types.

Chipset

Z690

Memory

4 x DIMM, Max. 128GB, DDR4 5333(OC)/5000(OC)/4800(OC)/4700(OC)/4600(OC)/4500(OC)/4400(OC)/4266(OC)/4133(OC)/4000(OC)/3800(OC)/3600(OC)/3400(OC)/3200(OC)/3000(OC)/2933(OC)/2800(OC)/2666(OC)/2400(OC)/2133 Non-ECC, Un-buffered Memory*
Dual Channel Memory Architecture

Supports Intel® Extreme Memory Profile (XMP)

OptiMem III

*Actual Memory frequency support depends on the CPU types and DRAM modules, for more information refer to [www.intel.com](#)

Graphics

1 x DisplayPort**

1 x HDMI® port***

*Graphics specifications may vary between CPU types. Please refer to [www.intel.com](#) for any updates.

** Support 8K@60Hz as specified in DisplayPort 1.4.

***Support 4K@60Hz as specified in HDMI® 2.1.

**** VGA resolution support depends on processors' or graphic cards' resolution.

Expansion Slots

Intel® 12th Gen Processors

1 x PCIe 5.0/4.0/3.0 x16 slot*

Intel® Z690 Chipset**

1 x PCIe 3.0 x16 slot (supports x4 mode)*

1 x PCIe 3.0 x1 slot

* Please check PCIe bifurcation table in User Guide Chapter 1 // support site.

** Supports Intel® Optane Memory H Series on PCH-attached PCIe slot

Storage

Intel® 12th Gen Processors

M.2_1 slot (Key M), type 2242/2260/2280/22110

- Intel® 12th Gen processors support PCIe 4.0 x4 mode.

Intel® Z690 Chipset

M.2_2 slot (Key M), type 2242/2260/2280 (supports PCIe 4.0 x4 mode)

M.2_3 slot (Key M), type 2242/2260/2280/22110 (supports PCIe 4.0 x4 mode)

M.2_4 slot (Key M), type 2242/2260/2280 (supports PCIe 4.0 x4 & SATA modes)

6 x SATA 6Gb/s ports***

* Intel® Rapid Storage Technology supports NVMe RAID 0/1/5, SATA RAID 0/1/5/10.

*** RAID configuration is not supported on the SATA6G_E1-2 ports.

Ethernet

1 x Intel® 2.5Gb Ethernet

Wireless & Bluetooth

2x2 Wi-Fi 6 (802.11 a/b/g/n/ac/ax)
Supports 2.4/5GHz frequency band
Bluetooth v5.2

USB

Rear USB: Total 10 ports

1 x USB 3.2 Gen 2x2 port (1 x USB Type-C®)
3 x USB 3.2 Gen 2 ports (2 x Type-A + 1 x USB Type-C®)
4 x USB 3.2 Gen 1 ports (4 x Type-A)
2 x USB 2.0 ports (2 x Type-A)

Front USB: Total 7 ports

1 x USB 3.2 Gen 2x2 connector (supports USB Type-C®)
1 x USB 3.2 Gen 1 header support(s) additional 2 USB 3.2 Gen 1 ports
2 x USB 2.0 headers support additional 4 USB 2.0 ports

Audio

ROG SupremeFX 7.1 Surround Sound High Definition Audio CODEC ALC4080

- Impedance sense for front and rear headphone outputs
- Supports: Jack-detection, Multi-streaming, Front Panel Jack-retasking
- High quality 120 dB SNR stereo playback output and 113 dB SNR recording input
- Supports up to 32-Bit/384 kHz playback

Audio Features

- SupremeFX Shielding Technology
- Savitech SV3H712 AMP
- Premium audio capacitors
- Audio cover

* Due to limitations in HDA bandwidth, 32-Bit/192 kHz is not supported for 7.1 Surround Sound audio.

** A chassis with an HD audio module in the front panel is required to support 7.1 Surround Sound audio output.

Back Panel I/O Ports

- 1 x USB 3.2 Gen 2x2 port (1 x USB Type-C®)
- 3 x USB 3.2 Gen 2 ports (2 x Type-A, 1 x USB Type-C®)

 <title>Placa de baza Gigabyte B560M D3H, Socket 1200</title>
 <description>GIGABYTE ofera o platforma testata si dovedita, care asigura compatibilitatea corespunzatoare pentru a face utilizatorii pentru a obtine acest spor de performanta este sa se asigure ca modulul de memorie este compatibil cu placa de baza GIGABYTE.Furnizarea mai curata si mai eficienta a energiei catre procesor, impreuna cu o performanta termica mai buna si la sarcini mari.
 Controler PWM digital pentru a furniza tensiunea corespunzatoare catre CPU.
 MOSFET-uri directe cu 6+2 faze RDS(on) scazut fara dubluri PWM, fiecare faza de alimentare se conecteaza direct la CPU.
 Condensatoare complet solide pentru a imbunatati raspunsul tranzitoriu si a minimiza oscilatiile.
 Conector de alimentare a procesorului cu 8 pini cu pin solid.

Smart Fan 6 contine mai multe caracteristici unice de racire care asigura mentinerea performantei PC-ului de jocuri, iar ventilatoarele pot sustine ventilatorul si pompa PWM/DC, iar utilizatorii pot defini cu usurinta fiecare curba a ventilatorului intr-un bord prin intermediul unei interfete de utilizator intuitive.</description>

Capacitatea maxima de memorie a placii de baza H510 este de 64 GB. Dupa ce Intel a actualizat codul de referinta al platformei H510, cu 2 DIMM populate pe fiecare canal pe ambele canale, capacitatea totala de memorie este de 64 GB, care era disponibila anterior care raman mereu in pana de capacitate de memorie, exista acum mai multa latime de banda pentru aplicatiile de gaming si video.</description>

 <title>Dell Active Pen PN350M</title>
 <description>A natural pen-on-paper writing experience for your 2-in-1 laptop
 Grab your black Dell Active Pen – PN350M and take notes or sketch a diagram on your 2-in-1i
 ressure sensitivity, the pen is like a natural extension of your hand, picking up the slightest nuances of pressure. Plus
 the screen without having to worry about stray lines or potential errors thanks to palm rejection technology.Dell Per

Enhance your productivity

Intuitive to use, the Active Pen is designed to make you more productive than ever. Using the pen is simple and you&

pair it with your laptop. Click the 2 barrel buttons to efficiently erase or launch the select arrow/context menu.

Stay worry-free with convenient features

When you're done taking notes, securely snap it into the garage of your Inspiron 7590/7390 2-in-1 (black) so you won't lose your pen when you're on the go. Be productive longer and enjoy peace of mind.

Overview

Do your servers and storage platforms need high capacity and proven performance hard drives to optimize your business? HPE Business Critical Hard Drives are engineered to deliver the highest capacity, performance, reliability and data security across your data center. HPE Business Critical Hard Drives store more data without sacrificing performance or reliability. HPE Business Critical Hard Drives are available in both 3.5" (SFF) and ship with a standard one-year warranty. All HPE hard drives pass a rigorous qualification process, which ensures they are optimized for server and storage environments. All HPE hard drives include digitally signed firmware which helps prevent unauthorized access to your data.

Features

HPE Business Critical Hard Drives offer high capacity for economic bulk storage
HPE Hard Drives Deliver High Performance and Reliability Across HPE Server and Storage Platforms
HPE Hard Disk Drives (HDDs) are enterprise-class drives for demanding 24x7 data center environments
HPE HDDs are validated and tested with on-going quality monitoring throughout their lifecycle
HPE offers highest capacity 18 TB hard drives that are ideal for digital content, bulk storage, cloud storage
Maximize Total Server Storage Capacity for Business Critical Workloads with HPE HDDs
HPE HDDs help simplify the cost and complexity of re-purposing or disposing of drives while protecting your data

HPE HDDs help prevent unauthorized access to your data with Digitally Signed Firmware
HPE HDDs are engineered to maximize total server storage capacity within data center environments
HPE HDDs are Engineered to Deliver High Capacity, Performance, Reliability and Data Security
Common HPE HDD carriers offer consistency and compatibility across HPE server and storage platforms
Simplify HDD planning and standardize HDDs across HPE server and storage solutions

Ajustat in mod ideal, pentru utilizarea atat cu mana dreapta, cat si cu mana stangaDesign-ul ambidextru iti ofera posibilitatea de a folosi mouse-ul atat cu mana dreapta, cat si cu mana stanga - in ambele cazuri, folosirea acestuia este la fel de confortabila.

Tehnologia BlueTrackProfita de tehnologia BlueTrack®, care combina puterea optica cu precizia laserului, pentru a oferi o precizie deosebita de mare.

Bluetooth SmartFunctionare fiabila si fara probleme datorita celei mai recente tehnologii Bluetooth 4.0.

Durata de viata a bateriei de pana la 6 luniFoloseste mouse-ul chiar si pana la sase luni, fara a schimba bateriile. Indicatorul de baterie este scazut.

Tehnologia BlueTrack®
Tehnologia combina puterea optica cu precizia laserului, permitand redarea foarte exacta a miscarilor, pe aproape orice suprafata.

Ajustat in mod ideal, pentru utilizarea atat cu mana dreapta, cat si cu mana stangaMouse-ul a fost creat atat pentru mana dreapta, cat si pentru mana stanga - in ambele cazuri, folosirea acestuia este la fel de confortabila.

<title>Bancuta cu depozitare Super girl</title>

<description>Sigura de folosit pentru copii: Capacul de inchidere lenta cu balama de siguranta impiedica inchiderea brusca a bancutei. Produsul este prevazut cu capac si manere laterale pentru transport facil. Poate fi folosita si ca bancuta, deoarece este suficient de rezistenta pentru a sustine copilul. Ajuta la organizarea camerelor de joaca, a dormitoarelor sau a camerelor de zi. Recomandat pentru varstele de 3-6 ani.

Dimensiune: 60x40x37 cm</description>

 efficiency. HPE Standard Memory options are designed to deliver performance, reliability and efficiency at an afford
 is sourced from the highest-quality DRAMS and undergoes a rigorous testing and authentication process. This exten
 mized for entry-level HPE server platforms to perform to industry-defined specifications.

What's new

Up to 16 GB DDR4-2666 MT/s memory options supported on HPE Gen10 servers.

Features

High Performance

HPE DDR4 Standard Memory matches the performance capabilities of the new generation of Intel®

HPE DDR4 Standard Memory reduces downtime and lowers energy costs using advanced error detection and correction. HPE engineers quality and reliability into every HPE DDR4 Standard Memory product. HPE DDR4 Standard Memory provides excellent quality and support for a selection of HPE Gen10 and Gen9 servers. High Reliability
HPE offers an affordable solution for small and medium business and remote and branch office customers. Increased Efficiency

Overview

Has your server been configured with the memory it needs to perform as its role expands over time? HPE Server Memory is designed to meet the most important need for performance and capacity, along with a desire to manage total cost of ownership. HPE SmartMemory enables you to get the most out of your server and is among the most power-efficient memory available. In addition to performance and efficiency, HPE SmartMemory modules are selected from top suppliers. Now more than ever, DRAM quality is critical, as data center trends such as server consolidation and virtualization applications have increased the need for higher-capacity memory with greater up-time. HPE SmartMemory undergoes rigorous testing to ensure performance features available only with HPE servers.

What's new

HPE SmartMemory 3200 MT/s memory supported on HPE Gen10 Plus AMD servers

Features

High Performance

HPE DDR4 3200 MT/s SmartMemory provides improvements in bandwidth in comparison to DDR4 2400 MT/s.
HPE DDR4 SmartMemory delivers improvements in latency at 3200 MT/s in comparison to DDR4 2400 MT/s.
HPE provides server memory that performs above industry standards, enabling customers to increase the amount of memory purchased.
HPE uses the highest quality materials for its DDR4 server memory, reducing issues that may affect performance.

HPE DDR4 SmartMemory prevents unnecessary DIMM replacement and reduces server downtime.
Hewlett Packard Enterprise tests and qualifies HPE DDR4 SmartMemory modules on all HPE server models.

High Reliability

<description>Lifecycle

Obsolete Date 31-10-2021

End of support date 31-10-2026

Specifications

Weight 0.045 KG

Product dimensions (H x W x D) 3.5 x 7.8 x 0.75 in

Minimum dimensions (H x W x D) 8.89 x 19.05 x 1.91 cm

Weight 0.1 lb

DIMM native speed (MT/s) 2933 MT/s

DIMM capacity 16GB

DIMM type RDIMM

DIMM rank Dual

Voltage 1.2 V

Overview

Has your server been configured with the memory it needs to perform as its role expands over time? HPE Server Memory is designed to meet your most important need for performance and capacity, along with a desire to manage total cost of ownership. HPE SmartMemory enables you to scale your memory as needed and is among the most power-efficient memory available. In addition to performance and efficiency, HPE SmartMemory components are selected from top suppliers. Now more than ever, DRAM quality is critical, as data center trends such as server consolidation and virtualization applications have increased the need for higher-capacity memory with greater up-time. HPE SmartMemory undergoes rigorous testing to ensure reliability and performance.

ormance features available only with HPE servers.

What's new

HPE SmartMemory 3200 MT/s memory supported on HPE Gen10 Plus AMD servers

Features

HPE provides server memory that performs above industry standards, enabling customers to increase the amount of memory purchased.

HPE uses the highest quality materials for its DDR4 server memory, reducing issues that may affect

HPE DDR4 SmartMemory prevents unnecessary DIMM replacement and reduces server downtime. Hewlett Packard Enterprise tests and qualifies HPE DDR4 SmartMemory modules on all HPE server

High Reliability

High Performance

HPE DDR4 3200 MT/s SmartMemory provides improvements in bandwidth in comparison to DDR4

HPE DDR4 SmartMemory delivers improvements in latency at 3200 MT/s in comparison to DDR4 2

Overview

Do your servers need high-performance enterprise hard drives for both your mission-critical and I/O-intensive applications? HPE Server Enterprise Hard Drives deliver the level of performance and reliability for your most demanding application workloads. Enterprise drives help you improve performance, accelerate data transfer (I/O) speeds. HPE Server Enterprise Hard Drives are backed by over 3.35 million hours of testing, ensuring customers' reliable, rugged drives. Prevent unauthorized access to your data with HPE Digitally Signed Firmware. HPE Digitally Signed Firmware comes from a trusted source and protects against malicious attacks. The self-describing icons on the HPE Smart Drive software "not remove" button prevents data loss from human error.

Overview

Do your servers need high-performance enterprise hard drives for both your mission-critical and I/O-intensive applications? HPE Server Enterprise Hard Drives provide the highest level of performance and reliability for your most demanding application workloads. Enterprise drives help you improve performance, accelerate data transfer (I/O) speeds. HPE Server Enterprise Hard Drives are backed by over 3.35 million hours of testing, ensuring customers' reliable, rugged drives. Prevent unauthorized access to your data with HPE Digitally Signed Firmware. HPE Digitally Signed Firmware comes from a trusted source and protects against malicious attacks. The self-describing icons on the HPE Smart Carrier "do not remove" button prevents data loss from human error.

What's new

New 300 GB and 600 GB 15K Large Form Factor (LFF) Hard Drives with Smart Carrier Converter (SCC) and

Up to 2.4 TB 10K SAS Small Form Factor (SFF) 512e Enterprise Hard Disk Drives

Up to 900 GB 15K SAS SFF and LFF Enterprise Hard Disk Drives

Features

Stable and consistent portfolio of drives offering long life cycles and steady supply.

Performance and Reliability for Any Workload

HPE Server Enterprise Hard Drives are ideal for transaction processing, database applications, Big

Broad portfolio of customized solutions provide up to 2.4 TB of storage.

Efficient drives provide power for space constrained data centers.

Latest 12G SAS interface for increased performance.

Overview

HPE Business Critical Hard Drives deliver the highest capacity, performance and reliability to your data center applications. HPE Business Critical hard drives are available in both 3.5-inch and 2.5-inch form factors and ship with a standard one-year warranty. All HPE hard drives pass a rigorous qualification process, which certifies them for use in mission-critical storage environments. All HPE hard drives include digitally signed firmware which helps prevent unauthorized access to your data.

What's new

HPE 16 TB SAS 12G Business Critical 7.2K LFF (3.5in) LP/SC/ST 512e ISE HDD

HPE 16 TB SATA 6G Business Critical 7.2K LFF (3.5in) LP/SC/ST 512e ISE HDDs

Features

HPE HDDs help prevent unauthorized access to your data with Digitally Signed Firmware

HPE HDDs help simplify the cost and complexity of re-purposing or disposing of drives while protecting your data

y

HPE HDDs are engineered to maximize total server storage capacity within data center environments

HPE HDDs are engineered to deliver high capacity, performance, reliability and data security
 Common HPE HDD carriers offer consistency and compatibility across HPE server and storage plat
 HPE offers highest capacity 16 TB hard drives that are ideal for digital content, bulk storage, cloud
 Maximize total server storage capacity for business critical workloads with HPE HDDs
 Simplify HDD planning and standardize HDDs across HPE server and storage solutions
 HPE HDDs are enterprise-class drives for demanding 24x7 data center environments
 HPE HDDs deliver High Performance and Reliability across HPE Server and Storage Platforms
 HPE HDDs are validated and tested with on-going quality monitoring throughout their lifecycle

Overview

Do you need to accelerate the performance of your data-intensive applications? HPE Read Intensive (RI) Solid State Drives (SSDs) are designed for applications requiring high random read IOPS performance. HPE (RI) SSDs are backed by over 3.35 million hours of testing. Value SAS SSDs offer a significant performance boost over SATA SSDs with roughly twice the IOPS of SATA SSDs, enabling faster time-to-value for Value SAS SSDs. HPE Digitally Signed Firmware prevents unauthorized access to your data by providing the assurance of integrity. HPE Smart Carrier take the guesswork out of a drive's status, and a "do not remove" button prevents accidental removal of your SSD with HPE SmartSSD Wear Gauge, allowing you to determine if any drives are at risk of failure.

What's new

HPE 480 GB, 960 GB, 1.92 TB, 3.84 TB NVMe x4 Lanes Read Intensive M.2 22110 3yr Wty Digitally Signed F
HPE 960 GB, 1.92 TB, 3.84 TB, 7.68 TB, 15.36 TB SAS 12G, Read Intensive, SFF (2.5-inch), SC, 3-year Warrant

Features

- Choose from a broad portfolio of enhanced solutions in a wide variety of capacities
- Maintain data accuracy with full data-path error detection.
- Achieve higher IOPs to enhance the performance of your data center.
- 12 Gb/s SAS, 6 Gb/s SATA, NVMe, M.2, and M.2 Enablement Kits
- High Performance, Exceptional Reliability, and Efficiency for Faster Business Results
- HPE solid state drives are ideal for big data analytics, cloud computing, active archiving, database applications, and more.
- HPE Multi Vendor SSD SKU offering ensures the SATA SSD selected, delivers the minimum level of performance required by the application.
- HPE enhanced its extensive SSD portfolio with a Multi Vendor SSD SKU offering that allows for extended life spans and preferably priced SATA SSDs.
- HPE Multi Vendor SSDs Offer Longer SKU Lifecycles and Immediate Availability on SATA SSDs
- Available in a variety of storage capacities, HPE Value SAS SSDs are the perfect choice for supporting demanding enterprise workloads.
- HPE Value SAS SSDs allow you to reduce operating costs for storing, powering and maintaining server environments.
- Optimized for enterprise application workloads, HPE Value SAS SSDs allow you to do more work with less space.
- For mission critical database workloads
- HPE Value SAS solid state drives (SSDs) support 12 Gbs, versus SATA SSDs at 6 Gbs
- HPE Value SAS SSDs Offer Twice the IOPS of SATA SSDs, Significantly Improving Workload Performance

Overview

Do your servers need high-performance enterprise hard drives for both your mission-critical and I/O-intensive applications? HPE Server Enterprise Hard Drives provide the level of performance and reliability for your most demanding application workloads. Enterprise drives help you improve performance, accelerate data transfer (I/O) speeds. HPE Server Enterprise Hard Drives are backed by over 3.35 million hours of testing ensuring customers' reliable, rugged drives. Prevent unauthorized access to your data with HPE Digitally Signed Firmware. HPE Digitally Signed Firmware comes from a trusted source and protects against malicious attacks. The self-describing icons on the HPE Smart Carrier "do not remove" button prevents data loss from human error.

What's new

New 300 GB and 600 GB 15K Large Form Factor (LFF) Hard Drives with Smart Carrier Converter (SCC) and Up to 2.4 TB 10K SAS Small Form Factor (SFF) 512e Enterprise Hard Disk Drives

Up to 900 GB 15K SAS SFF and LFF Enterprise Hard Disk Drives

Features

- Broad portfolio of customized solutions provide up to 2.4 TB of storage.
- Efficient drives provide power for space constrained data centers.
- Latest 12G SAS interface for increased performance.
- Stable and consistent portfolio of drives offering long life cycles and steady supply.
- Performance and Reliability for Any Workload
- HPE Server Enterprise Hard Drives are ideal for transaction processing, database applications, Big

Overview

Do your servers need high-performance enterprise hard drives for both your mission-critical and I/O-intensive applications? HPE Server Enterprise Hard Drives provide the level of performance and reliability for your most demanding application workloads. Enterprise drives help you improve performance, accelerate data transfer (I/O) speeds. HPE Server Enterprise Hard Drives are backed by over 3.35 million hours of testing, ensuring customers' reliable, rugged drives. Prevent unauthorized access to your data with HPE Digitally Signed Firmware. The firmware comes from a trusted source and protects against malicious attacks. The self-describing icons on the HPE Smart Carrier "do not remove" button prevents data loss from human error.

What's new

New 300 GB and 600 GB 15K Large Form Factor (LFF) Hard Drives with Smart Carrier Converter (SCC) and Smart Carrier
Up to 2.4 TB 10K SAS Small Form Factor (SFF) 512e Enterprise Hard Disk Drives
Up to 900 GB 15K SAS SFF and LFF Enterprise Hard Disk Drives

Features

HPE Server Enterprise Hard Drives are ideal for transaction processing, database applications, Big Data and analytics.
Broad portfolio of customized solutions provide up to 2.4 TB of storage.
Efficient drives provide power for space constrained data centers.
Latest 12G SAS interface for increased performance.
Performance and Reliability for Any Workload
Stable and consistent portfolio of drives offering long life cycles and steady supply.

Overview

HPE Business Critical Hard Drives deliver the highest capacity, performance and reliability to your data center applications. HPE Business Critical hard drives are available in both 3.5-inch and 2.5-inch form factors and ship with a standard one-year warranty. All HPE hard drives pass a rigorous qualification process, which certifies them for use in mission-critical storage environments. All HPE hard drives include digitally signed firmware which helps prevent unauthorized access to your data.

What's new

HPE 16 TB SATA 6G Business Critical 7.2K LFF (3.5in) LP/SC/ST 512e ISE HDDs

HPE 16 TB SAS 12G Business Critical 7.2K LFF (3.5in) LP/SC/ST 512e ISE HDD

Features

HPE HDDs are validated and tested with on-going quality monitoring throughout their lifecycle

HPE HDDs are enterprise-class drives for demanding 24x7 data center environments

HPE HDDs deliver High Performance and Reliability across HPE Server and Storage Platforms

Common HPE HDD carriers offer consistency and compatibility across HPE server and storage platforms

Simplify HDD planning and standardize HDDs across HPE server and storage solutions

HPE HDDs are engineered to maximize total server storage capacity within data center environments

HPE HDDs help prevent unauthorized access to your data with Digitally Signed Firmware

HPE HDDs help simplify the cost and complexity of re-purposing or disposing of drives while protecting your data

HPE HDDs are engineered to deliver high capacity, performance, reliability and data security

Maximize total server storage capacity for business critical workloads with HPE HDDs

HPE offers highest capacity 16 TB hard drives that are ideal for digital content, bulk storage, cloud storage and more

Overview

Do your servers need high-performance enterprise hard drives for both your mission-critical and I/O-intensive applications? HPE Server Enterprise Hard Drives provide the level of performance and reliability for your most demanding application workloads. Enterprise drives help you improve performance, accelerate data transfer (I/O) speeds. HPE Server Enterprise Hard Drives are backed by over 3.35 million hours of testing, ensuring customers' reliable, rugged drives. Prevent unauthorized access to your data with HPE Digitally Signed Firmware. HPE Digitally Signed Firmware comes from a trusted source and protects against malicious attacks. The self-describing icons on the HPE Smart Storage Battery "not remove" button prevents data loss from human error.

What's new

Up to 2.4 TB 10K SAS Small Form Factor (SFF) 512e Enterprise Hard Disk Drives
 New 300 GB and 600 GB 15K Large Form Factor (LFF) Hard Drives with Smart Carrier Converter (SCC) and
 Up to 900 GB 15K SAS SFF and LFF Enterprise Hard Disk Drives

Features

Performance and Reliability for Any Workload

HPE Server Enterprise Hard Drives are ideal for transaction processing, database applications, Big Data, and more. Broad portfolio of customized solutions provide up to 2.4 TB of storage. Efficient drives provide power for space constrained data centers. Latest 12G SAS interface for increased performance. Stable and consistent portfolio of drives offering long life cycles and steady supply.

HPE 16 TB SATA 6G Business Critical 7.2K LFF (3.5in) LP/SC/ST 512e ISE HDDs

Features

HPE offers highest capacity 16 TB hard drives that are ideal for digital content, bulk storage, cloud and big data. Maximize total server storage capacity for business critical workloads with HPE HDDs. Common HPE HDD carriers offer consistency and compatibility across HPE server and storage platforms. Simplify HDD planning and standardize HDDs across HPE server and storage solutions. HPE HDDs help simplify the cost and complexity of re-purposing or disposing of drives while protecting your data.

HPE HDDs help prevent unauthorized access to your data with Digitally Signed Firmware. HPE HDDs are engineered to maximize total server storage capacity within data center environments. HPE HDDs are engineered to deliver high capacity, performance, reliability and data security. HPE HDDs are enterprise-class drives for demanding 24x7 data center environments. HPE HDDs deliver High Performance and Reliability across HPE Server and Storage Platforms. HPE HDDs are validated and tested with on-going quality monitoring throughout their lifecycle.

Specifications

Minimum dimensions (H x W x D) 12.7 x 22.86 x 17.78 cm
Weight 1.1 lb
Weight 0.5 kg
Product dimensions (H x W x D) 5 x 9 x 7 in
Lifetime Writes 1,400
Plug Type Hot Pluggable
Power (Watts) 6
Endurance DWPD (Drive Writes Per Day) 0.8
Height 7mm
Write IOPS Random Write IOPS (4KiB, Q=16)=29,000 Max Random Write IOPS (4KiB)=29,000@Q4
Read IOPS Random Read IOPS (4KiB, Q=16)=58,500 Max Random Read IOPS (4KiB)=58,500@Q32
Warranty 3/0/0 warranty Customer Self Repair (CSR) subject to maximum usage limitations. Maximum usage is 100,000 writes per drive per year. Exceeding this limit may void the warranty. Maximum usage is ten to the drive. Drives that have reached this limit will not be eligible for warranty coverage.

Overview

Do you need to accelerate the performance of your data-intensive applications? HPE Read Intensive (RI) Solid State Drives (SSDs) are designed for applications requiring high random read IOPS performance. HPE (RI) SSDs are backed by over 3.35 million hours of testing. HPE Value SAS SSDs offer a significant performance boost over SATA SSDs with roughly twice the IOPS of SATA SSDs, enabling faster data access. HPE Digitally Signed Firmware prevents unauthorized access to your data by providing the assurance of integrity. HPE Smart Carrier take the guesswork out of a drive's status, and a "do not remove" button prevents accidental removal. HPE SmartSSD Wear Gauge, allowing you to determine if any drives are at risk of failure.

What's new

HPE 960 GB, 1.92 TB, 3.84 TB, 7.68 TB, 15.36 TB SAS 12G, Read Intensive, SFF (2.5-inch), SC, 3-year Warranty
HPE 480 GB, 960 GB, 1.92 TB, 3.84 TB NVMe x4 Lanes Read Intensive M.2 22110 3yr Wty Digitally Signed Firmware

Features

Available in a variety of storage capacities, HPE Value SAS SSDs are the perfect choice for supporting read-intensive workloads. HPE Value SAS SSDs allow you to reduce operating costs for storing, powering and maintaining server environments.

Optimized for enterprise application workloads, HPE Value SAS SSDs allow you to do more work with functional database workloads

HPE Multi Vendor SSD SKU offering ensures the SATA SSD selected, delivers the minimum level of performance and preferably priced SATA SSDs.

HPE Multi Vendor SSDs Offer Longer SKU Lifecycles and Immediate Availability on SATA SSDs

Achieve higher IOPs to enhance the performance of your data center.

Maintain data accuracy with full data-path error detection.

Choose from a broad portfolio of enhanced solutions in a wide variety of capacities

12 Gb/s SAS, 6 Gb/s SATA, NVMe, M.2, and M.2 Enablement Kits

HPE solid state drives are ideal for big data analytics, cloud computing, active archiving, database applications, High Performance, Exceptional Reliability, and Efficiency for Faster Business Results

HPE Value SAS solid state drives (SSDs) support 12 Gbs, versus SATA SSDs at 6 Gbs

HPE Value SAS SSDs Offer Twice the IOPS of SATA SSDs, Significantly Improving Workload Performance

TECHNICAL DATA

Pump Socket Compatibility: Intel: LGA 20xx/ 115x/ 1200/ 1700; AMD: AM4

TDP: up to 200W

Pump Installation: with Backplate

Pump Dimensions: 78 x 84 x 45 mm

Pump Speed: 2600 ± 10% rpm

Pump Rated Voltage: DC12V

Pump Noise Level: 23 dBA

Pump Coldplate Material: Copper
Pump Connectors: 4-PIN (PWM) + 3-PIN ARGB
Radiator Dimensions: 156 x 120 x 27 mm
Radiator Material: Aluminum
Tubing Length: 350 mm
Tubing Type: Ultra-Low Evaporation Rubber, Nylon Braided
Fan Dimensions: 120 x 120 x 25 mm
Fan Bearing: Hydraulic
Fan Speed: 800 - 1800 plusmn; 10% rpm
Fan Air Flow: 30 - 75 CFM
Fan Noise Level: 25 - 32 dBA
Fan Rated Voltage: DC12V
Fan Connectors: 4-PIN (PWM) + 3-PIN ARGB
Fan Included: 1 piece
Special features: ARGB controller included; High-performance thermal paste included
Illumination: ARGB (Pump and Fan)
ARGB compatibility: ASRock Polychrome SYNC, ASUS Aura Sync, GIGABYTE RGB Fusion, MSI Mystic Light S
PWM Controlled: Yes (Pump and Fan)
