

TUCHEL-SWEEP

BIG

The BIG bucket
sweeper
for skid steers
& compact
loaders!

TUCHEL
MASCHINENBAU GmbH

There's lot's of dirt? No problem for our BIG!

The **BIG** incl. universal skidsteer loader hitch (Bobcat 500-900) has been designed for your skidsteer loader in particular. This unique heavy duty sweeper comes complete with it's own bucket and is built to perform in the toughest environments. Its principle is vice-versa: Here, the brush is mounted in front of the bucket debris collector. Advantage: Weight of the swept material is close to the carrier-vehicle and ensures an excellent distribution of weight, especially for skidsteer loaders.

A heavy duty scraping edge allows to scrape stubborn material from the ground. The resistant brush (100% PP, in honey-comb shape, Ø 600 mm) is easy to adjust and to exchange. The **BIG** is driven by a strong hydraulic motor, incl. overload protection that is placed inside the shaft and thus well-protected against any damage. A reinforcement kit makes your **BIG** perfect for preparing hard standing areas for laying Tarmac.

Options:

- Quick-hitch for wheeled loaders
- Reinforcement kit for continuous operation
- Extremely heavy duty bolt-on reversible armour kit for bucket – double durability
- Mixed brush (50% PP / 50% wire)
- Fully adjustable hydraulic side brush (50% PP / 50% wire)
- Water kit 100 l / 200 l, incl. intermitting-pump and switch board for dust suppression

- heavy duty sweeper
- extra large bucket
- excellent distribution of weight, even with full debris collector

Technical data		120	150	165	180	210
